Girish Jain
Managing Director

Each unit is managed by representatives knowledgeable about the products and customer needs and are focused on delivering a value to the clients and customers.

what we produce/serve

Arihant Group has created one of the largest business networks in the country, operates a state of the art facility, and manages one of the largest manufacturing and trading service fleets in Nepal. Each unit is managed by representatives knowledgeable about the products and customer needs and are focused on delivering a value to the clients and customers.

manufacturing

Arihant operates world class plant for supplying products in a timely and cost efficient manner. From carton boxes to various type of stitch wire, ACSCR core conductor wire and Galvanized steel products, its facilities combine the precision of clean room manufacturing and environmental conditioning labs, with the in-house support of design, process, and application engineering to closely monitor all phases of production. This in-house integration has enabled the company to be a valued supplier to the various markets' segments; supporting the technological and reliability demands of such field especially for the chemicals used in food, leather, paper and textile. Manufacturing's self-directed work teams employ a network of computer enhanced technology and process monitoring controls to consistently meet all delivery expectations and exceed all quality goals, while satisfying the commercial standards. These tools, along with a robust training program, instill quality control throughout the entire manufacturing process, enabling the company to offer the highest reliability product at cost effective prices. The manufacturing products of the company ranges from printing materials to lubricants, adhesive and coir yarn.

The manufacturing products of the company ranges from printing materials to lubricants, adhesive and coir yarn.

But, over time responsibilities have grown to encompass a diverse trading portfolio like foreign goods, dry foods, and edible oil and so on.

trading

Arihant's Trading Unit imports and sources it from local producers and traders from agricultural commodities to computer parts and help families and communities in developing countries to flourish. The major goal is to manage the importation into Nepal of silk yarn. But, over time responsibilities have grown to encompass a diverse trading portfolio like foreign goods, dry foods, and edible oil and so on. Its distribution channels are set throughout the country to make sure that these products are available all over Nepal.

service
